

Koldware Industries

Controlled Atmosphere Storage Systems

*Commitment to Preserve Freshness
and Flavour of your
Horticulture and Food Products*

VISION

*To be the Market Leader
in the Agriculture and Industrial
Service Sector.*

MISSION

*We intend to bring about
changes in the cold storage
sector by developing localized
controlled atmosphere systems
for individuals/companies
throughout the length &
breadth of Pakistan.*

What is Controlled Atmosphere Storage?

Controlled atmosphere slows down the natural ripening/respiration process and extends the product life. This involves keeping the produce at the optimal temperature, with the most effective combination of oxygen, carbon dioxide and nitrogen. Such individually-specified atmosphere, reduces product respiration, minimizes product degradation and spoilage, and ensures the highest possible product quality upon delivery.

*WE CONTROL THE CONDITIONS
IN THE STORE THUS PRESERVING
FRESHNESS AND FLAVOUR*

Manufacturing & Services

- Manufacturer of PU Panels & Refrigeration Equipments
- Consultancy
- CA Storage & CA Chambers
- Cold Storage
- Refrigerated Transport
- Cold Chain Facilitations
- Post Harvest Facilitations
- Field Heat Removal Systems
- Hardening Rooms
- IQF
- Dry Storage
- Ripening Rooms
- Rental Facilities
